

Licensing

Unlike many other State Fire Marshal agencies, we do not charge a fee for our inspection and plans review services at this time. However, there are a few programs which require additional staff or additional services for which we do charge a fee.

The state budget situation constantly changes, if any changes are made to our fee structure we will notify and post accordingly.

Fire Alarm & Sprinkler Companies

Kansas does not license fire alarm or sprinkler companies at this time however, registration is required by our Office. Access the [registration form \(PDF\)](#).
