We carry the recommended references for the Nevada Fire Protection (C-41)License examination.

NEVADA FIRE PROTECTION CONTRACTOR (C-41)

SCOPE OF WORK COVERED: This license allows work in all sub-classifications in this category, which are: Automatic Fire Sprinklers (C-41a), Fixed Fire Extinguishing Systems (C41b) and Fire Alarms (C-41c).

PRE-APPROVAL: Applicants must submit an application to the state licensing board to obtain approval before being eligible to take the exam.

There are other licenses available;
Click here to select another license
([SelectLicense.aspx?st=nv](#))

BUSINESS AND LAW: Applicants are required to pass both the trade exam and the Management Survey Exam (Business and Law Exam) in order to obtain a license.

EXPERIENCE REQUIRED: Applicants must be able to document a minimum of four (4) years of experience within the past 10 years to qualify for a license. This experience must be as a Journeyman, foreman, supervising employee or contractor. Education may be used to satisfy a portion of the required experience. Applicants must also submit 4 reference certificates concerning their work experience and submit to a background check.

FINANCIAL REQUIREMENTS: All applicants must submit current financial statements to the state licensing board. Monetary limits are set based on financial standing. If seeking a financial limit less than \$1,000,000 the statement must be compiled, reviewed or audited by a CPA, self-prepared on a form provided by the Board, or using accounting software and accompanied by an affidavit. When seeking a monetary limit of \$1,000,000 or more, the financial statement must be reviewed and audited by a CPA.

EXAM DETAILS: PSI Licensure Certification administers the exam. It is a semi open-book, timed test with 90 questions and a 3-hour time limit. A score of at least 70% (63 correct) is required to pass the exam. The exam fee is \$85 for a single exam and \$130 for one trade exam plus the Contractor Management Survey Exam. If the test is failed three times the applicant must begin the application process over and reapply directly to the Nevada State Contractors' Board.

EXAM CONTENT: Fire Sprinkler Systems Fire Sprinkler – Wet & Dry Chemical Fire Sprinkler – Standpipe Fire Prevention Code Compliance Fire Alarms General Regulations

BOND / INSURANCE: All contractors are required to obtain a bond. The amount of the bond (\$1,000 - \$500,000) is determined by the board based on license type, monetary limit, past, present, and future financial responsibility, experience and character of the applicant. It is possible to use a cash deposit that is held by the board, with a yearly \$100 fee, in place of a bond. All contractors are required to carry worker's compensation insurance.

LICENSING FEE: The application/licensing fee is \$600.00 (\$300 application fee and \$300 licensing fee).

PROCESSING TIME: It takes approximately 2 weeks to receive an approval letter after submitting your application to the board. However, processing times vary depending on the time required to verify experience, financial statements, references and completing background checks.

RECIPROCITY: The state of Nevada has a reciprocity agreement with California, Arizona, and Utah. There is no reciprocity for the plumbing and electrical trades. Applicants must have at least 7 years of experience and meet all licensing requirements.

We currently do not offer a seminar for this license. Our website is updated frequently; please come back. For more information regarding this license, please contact our office at 1-800-992-1910.
